FIRST-CLASS

Independence Day celebrations in 1947 were marked by events of cosmic magnitude. On that infamous day, intense thunderstorms demonstrated the powers of the heavens. Amidst a blinding rain and an electric-filled sky, radar tracked an object fall towards Earth. Rumors of debris-strewn fields and military cover up suggested a UFO had crashed in the Roswell area. The mystery of the "Roswell incident" attracts a host of visitors annually. Is Earth a target of galactic probes or is New Mexico simply an out-of-this-world place to vacation? Discover Roswell!
